

Women Who Run With Wolves Workshops

The Handless Maiden - Initiation in the underground forest.

Sunday 7th May 2017 - 10am – 4.30pm

6 hrs CPD per workshop

The first of three workshops in our 2017 programme, designed for women to connect with their **soul's journey**.

The ancient stories we will be using come from the book *Women Who Run with the Wolves* by Clarissa Pinkola Estes. They invite us to use our intuition to connect to a place of healing, through story-telling, sharing, ritual, movement and creative materials to open to the deep wisdom of the body and to listen to the soul's call.

An open invitation to women with a willingness and desire to connect. You do not need any prior experience and each workshop can be taken individually. There will be a maximum of 15 women.

In these workshops it is our intention to create a safe, sacred space in which we can connect as a community of women to share our feminine nature and spirit to guide our selves back home.
