

## **Facing the challenges of change and transition in everyday life.**

**This workshop is an exploration from a Jungian Perspective  
of this process as outlined in The writings of Marion Woodman,  
with Josephine Dyer & Marilyn Copeland.**

**Where:** Oak Maree House, 5 McNamara's Rd., Millgrove, Victoria 3799, Australia.

**Dates:** 31August, 1, 2, 3 September 2023

**We encourage you in this workshop to reflect on your life process and the dreams that come to guide you. We will provide a space where individuals will have time to explore through dance, music and art their personal stories and engage with others on the journey of Bodysoul and reflect on Archetypal images in our stories and our dreams. This discovery brings greater wholeness, healing and authenticity as we face the challenges of change and transition in our daily lives. *'A life that is truly lived is constantly burning away the veils of illusion, gradually revealing the essence of the individual.'* Marion Woodman**
